- Flutter / Dart
- JavaScript / jQuery
- Git / Azure DevOps

LANGUAGES

English	Professional
Urdu	Native

METHODOLOGY

- Agile / Scrum
- CI/CD Pipelines
- Clean Architecture
- SOLID Principles
- Code Review

SUMMARY

I help businesses, startups, and government organizations design, develop, and ship secure, scalable web applications — from robust APIs to pixel-perfect frontends. Whether you need a full product built from scratch or an experienced engineer on your team, I deliver.

EXPERIENCE

Senior Software Engineer

Jul 2022 – Present

Datasoft Solutions (Pvt.) Ltd.

Karachi, Pakistan

- Designed and developed secure, scalable RESTful APIs using ASP.NET Core and SQL Server
- Optimized backend services, reducing API response times through query optimization and caching strategies
- Integrated third-party systems (payment gateways, notification services, external APIs) into enterprise platforms
- Collaborated with cross-functional teams (QA, UI/UX, BA, PM) to deliver business-critical applications on schedule
- Mentored junior developers and conducted code reviews to maintain code quality standards

Full Stack Software Engineer

Sep 2021 – Jun 2022

Knowledge & Human Development Authority (via Kalsoft)

Karachi ' Dubai, UAE (Remote)

- Developed full-stack applications for Dubai's KHDA — one of UAE's key government authorities
- Built secure backend services in ASP.NET Core and interactive frontend modules in Angular
- Delivered government-grade solutions meeting strict security, compliance, and performance requirements
- Worked directly with international stakeholders to translate business requirements into technical implementations

Software Engineer

Aug 2017 – Aug 2021

Nixaam LLC

Karachi, Pakistan

- Built and maintained healthcare applications: patient management systems, clinical reporting modules, scheduling tools
- Developed backend services in .NET and frontend modules in Angular serving thousands of daily users
- Contributed to systems handling sensitive patient data with security-first development practices
- Maintained and optimized legacy codebases while simultaneously shipping new features and modules

Freelance Full Stack Developer

Ongoing

Independent

- E-Commerce Platform, Flutter Mobile App, BAA Consultancy Website, CMS, and more
- Serving clients in Pakistan, UAE, and remotely worldwide
